

RFI's with Responses

Updated May 19, 2026	
1.	Given the magnitude of content and development effort required from our Design-Build team and partners, will the CDB kindly consider a 1-week extension to the Phase I submission deadline?
A.	<i>Phase I submittal deadline is May 28, 2026 at 2:00 pm.</i>
2.	The RFP notes that offerors pursuing the project as a Joint Venture (JV) need to submit the JV Agreement with the Phase I submission. Due to the limited timeframe for the submission of the Phase I submission, will a teaming agreement be acceptable? Finalizing and executing a JV Agreement, as well as obtaining the TIN prior to the submission date may not be possible.
A.	<i>A teaming agreement between the JV parties would be acceptable. The agreement should state the ownership percentage for each party. The JV may not require a new TIN if each party continues to perform under their existing business. Each party of the JV would be considered an offeror and must submit all contents of the submittal requirements under SECTION 00 42 10.2B.</i>
