

# SIUE Health Sciences Program Priority Worksheet

This document sorts the approved program into three categories. Category 1 are required/must have elements. Category 2 are elements that should be included as budget allows. Within Category 2, items in 2.1 should be considered higher priority than 2.2. Items in Category 3 are elements that can be removed from the design if they cannot be accommodated within the budget. Proposing teams should reference the original program (dated July 16, 2021) for additional information about the program elements.
