I. DESCRIPTION OF THE ILLINOIS CAPITAL DEVELOPMENT BOARD

Enacted under the Capital Development Board Act (20 ILCS 3105), the Capital Development Board ("CDB") is the construction management agency for Illinois state government. CDB oversees the construction of new state facilities, such as prisons, college and university classroom buildings, mental health hospitals and state parks. In addition, CDB is responsible for renovation and rehabilitation projects at over 8,770 state-owned buildings spread over more than 100 million square feet of floor space.

The agency also works with the Illinois State Board of Education to administer grants for school construction and renovation to local elementary and secondary school districts through the School Construction Program. In addition to its construction duties, CDB also is responsible for the removal of hazardous materials such as asbestos and lead from state-owned facilities, the replacement of leaking underground storage tanks on state property and the remodeling of state buildings to accommodate persons with disabilities.

Established to better manage the State's capital improvement programs, CDB is guided by a seven-member, bipartisan board that deliberates matters of policy; approves the selection of design professionals pursuant to the Architectural, Engineering, and Land Surveying Qualifications Based Selection Act (30 ILCS 535); and sets the direction for CDB. The Board members, who are appointed by the governor and confirmed by the Illinois Senate, serve four-year, unpaid terms.
