

# Capital Needs Assessment Survey Results

October 2014

**State of Illinois, Pat Quinn**  
**Governor**

***Public Act 93-0489 requires the Illinois State Board of Education (ISBE) and the Capital Development Board (CDB) to file a comprehensive assessment report of the capital needs of all school districts to the General Assembly every two years. In an effort to compile this assessment needs report, the two agencies requested that all school districts complete and submit a Capital Needs Assessment Survey.***

## Overview

Responses were submitted by 558 elementary, secondary and unit school districts. They reported \$8 billion of capital needs for new schools, building additions, and general repair work for the next two years. Significant findings of the survey include:

Approximately \$848 million is needed to build 96 new school buildings.

Over \$6.5 billion is needed for overall general repair and remodeling projects.

To ease overcrowding, districts are using 846 temporary classrooms.

Of the overall general repair/remodeling and renovation needs, approximately \$2.6 billion is needed for Health/Life Safety work.

Approximately \$596 million is needed for 151 building additions.

51 school districts report they are either a candidate for or are considering consolidation.

339 additional classrooms are needed for Pre-Kindergarten classes.

406 additional classrooms are needed for Kindergarten classes.

Districts report they need \$147.9 million for external and internal infrastructure and network devices to meet current technology and Partnership for Assessment of Readiness for College and Career (PARCC) requirements.

VI. **Consolidation:** Is this district a candidate or considering consolidation? Yes  No

VII. **Bonding power:** Will this district need to exceed its general obligation debt limit to finance the construction projected for the next 2 years? Yes  No

Does the District provide full-day Pre-Kindergarten Classes? Yes  N/A

Does the District provide full-day Kindergarten Classes? Yes  No

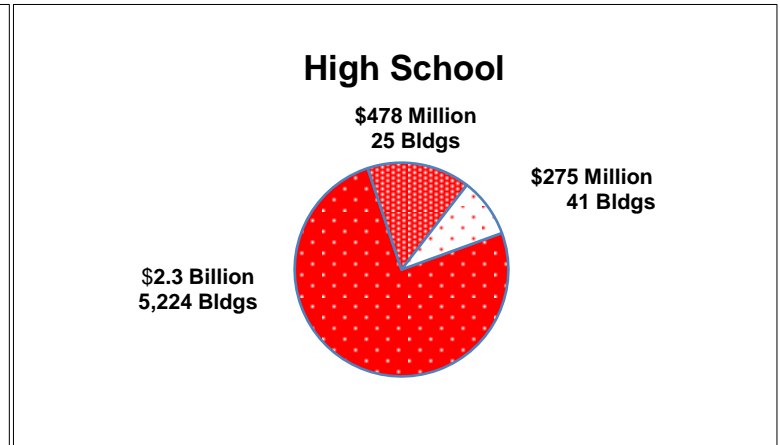

Does the District need additional classrooms to provide this instruction? Yes  No

If Yes, how many additional Pre-Kindergarten classrooms are needed?  (Insert # of PK Classrooms)

If Yes, how many additional Kindergarten classrooms are needed?  (Insert # of Kdg. Classrooms)

\*HLS denotes Health/Life and Safety

# Capital Needs Through January 2016

## General Repair/Remodeling/Renovation

The estimated need for General Repair/Remodeling and Renovation work is graphically represented in the bar chart below. These needs are projected within the next two years, and are over and above the work in progress through 2014.

## Overview of Needs and Resources

The Illinois State Board of Education and the Capital Development Board conducted the first Capital Needs Assessment Survey in 2004. That survey, which was answered by 690 districts, showed estimated capital needs of \$6.7 billion. The current survey shows estimated capital needs of \$8 billion, with 558 school districts responding. That is an average of \$14.3 million per district.

<b>Survey Year</b>	<b>No. of Respondents</b>	<b>Estimated Need (Billions)</b>	<b>Average Per District (Millions)</b>
2005	690	\$6.7	\$9.7
2007	450	\$8.2	\$18.2
2009	456	\$7.6	\$16.6
2011	618	\$9.9	\$16.1
2013	385	\$7.2	\$18.9
2015	558	\$8.0	\$14.3

## Technology Needs

Three new technology lines have been added to this year's survey to determine technology/infrastructure needs of school districts. The Partnership for Assessment of Readiness for College and Career (PARCC) has developed technology guidelines to assist districts with meeting the instructional and assessment needs of their students.

The information in the Capital Needs Assessment Survey is intended to assess districts' technology needs to prepare them for the requirements for the computer-based assessment. The survey reflects a need of approximately \$49 million for External Infrastructure (T1, fiber, wireless, etc.), \$78 million for Internal Infrastructure (hubs, routers, internal wiring, etc.) and \$21 million for Network Devices (servers, firewalls, etc.).

## Temporary Units

Districts use temporary-modular or manufactured unit facilities to provide classrooms for their students when their school building capacity is not sufficient to accommodate their enrollment. To ease overcrowding, reporting districts are using 846 temporary classrooms.

## Pre-Kindergarten and Kindergarten Programs

Out of 541 districts responding to the survey question, 70 districts reported that they provide full-day Pre-Kindergarten, 310 districts provide half-day Pre-Kindergarten and 51 districts provide both full- and half-day classes.

The survey shows 110 districts answered "non-applicable" to the question.

Of the 515 districts responding to the survey question, 433 districts provide full-day Kindergarten classes.

The survey reflects the need for 406 additional classrooms for Kindergarten and 339 classrooms for Pre-Kindergarten.

## School Construction Grant Program

The Illinois General Assembly passed the School Construction Law (Public Act 90-548) in December 1997.

The initial School Construction Grant Program benefited 502 school districts in every region of the state and provided over \$3.1 billion in state-funded grants to provide for new facilities, additions and renovations of aging buildings.

The fiscal year 2010 Illinois Jobs Now! Program provided \$1.5 billion over multiple years. Since May 2010, 99 grants totaling over \$1.3 billion have been awarded, providing for 57 new schools and 993 additions and/or renovations. Through a successful partnership using local and state matching funds, over \$2.6 billion has been invested in these facilities. A list of these school districts is available at
